AYER'S HAIR VIGOR
FOR RESTORING GRAY HAIR
To its Natural Vitality and Color.

Advancing years, sickness, care, dis- appointment, and hereditary predisposition all turn the hair gray, and either of them incline it to shed prematurely. Ayer's Hair Vigor, by long and extensive use, has proven that it stops the falling of the hair immediately, often renews the growth, and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus, brassy, weak or sickly hair becomes glossy, pliable and strengthened. Lost hair regrows with lively expression, falling hair is checked and established, thin hair thickens, and faded or gray hair resumes its original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the Vigor is praised for its grateful and agreeable perfume, and valued for the soft luster and richness of tone it imparts.

MIDDLE-AGED MEN.
There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and torpid appearance. NOTICE TO LIEN-HOLDERS.

IN THE CIRCUIT COURT OF THE United States for the Ninth Circuit District of Nevada. C. P. RUSSELL, Complainant against The Truckee and Steamboat Springs Irrigating Canal Company. Defendant. Notice is hereby given that the complainant in the above entitled action has commenced an action in the above entitled court against the defendant above named, to enforce liens held, claimed and owned by him under the provisions of an Act of the Legislature of the State of Nevada entitled "in Act to secure liens to mechanics and laborers to repair all other Acts in relation thereto," approved March 2, 1875. Said liens are claimed upon the following described premises and property owned by defendant, to-wit: That certain water ditch and irrigating canal situate, lying and being in the County of Washoe, State of Nevada known as and called the Truckee and Steamboat Springs Irrigating Canal Company's canal commencing at the boundary line between the States of California and Nevada, about two miles above the town of Verdi, and extending thence in a general northeasterly direction the distance of 34 miles to a point near the Steamboat Springs in said County of Washoe in Section 33, Township 11 North, Range 7 East, Mount Diablo Base and Meridian, together with the land in and upon which said Canal is constructed, and the right of way for the same, and all the water rights and privileges had and claimed or enjoyed by defendant or to which defendant claims or is entitled to and the right to the waters of the Truckee River to the full capacity of said ditch or canal, as it now is or may be hereafter enlarged by said defendant, and also all easements now had and owned or enjoyed by said defendant upon the lands over which said Canal runs, and all houses, aqueducts and other structures and appurtenances and dams or other structures used with said Canal and water privileges or to the use of which said defendant is entitled, and every other right of every nature and kind owned by defendant, useful or necessary, to the full enjoyment of said Canal and appurtenances and to the conveying of water through said Canal for irrigating and other beneficial purposes.
Notice is hereby given to all persons having, holding or claiming any lien or liens against said premises or property or any part thereof under said Act of the Legislature, to be and to appear before said Court at the Court Room thereof at the City of Carson, Washoe County, State of Nevada, in said District of Nevada, on Monday the 6th day of September, A. D. 1880, at 10 o'clock A. M. of said day, and then and there make due proof of their liens.

DR. WM. HALL'S

BALSAM

Cures Colds, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the membranes of the Lungs, inflamed and poisoned by the disease, and prevents the night sweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALM is that remedy. DON'T DESPAIR OF RELIEF, for this benign specific will cure you, even though professional aid fails.

Dr. W. H. Hinsdale.

Kewanee, Ill., advises us of a remarkable cure of Consumption. He says: "A neighbor's wife was attacked with violent lung disease, and pronounced beyond help from Quack Consumption. As a last resort the family was persuaded to try HALL'S BALM. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work. I saw her at her worst stage, and had no idea she could recover."

TAKE NOTICE.

AT A MEETING OF THE BOARD OF TRUSTEES of the Reno Savings Bank held July 16th, 1880, the following resolutions were adopted:

WHEREAS, It appearing to the Board that the condition of the Reno Savings Bank and its business is such that it is imperative necessary that its assets and securities realized upon and the claims of creditors protected and discharged and it further appearing, because of impending litigation and attachments and the present state of public feeling, that this Board can better accomplish the end desired and perform the trust to the creditors and shareholders imposed upon it by law, by the employment of a competent person, under the authority of this Board, to undertake the collection and distribution of the assets of the corporation, and

Resolved, That L. C. Hatchelder be and he is hereby removed as Cashier and Clerk, and that D. B. Boyd, of Reno, Nevada, be and he is hereby appointed and employed as Cashier and Clerk, with full powers following, that is to say: 1st. To investigate at once the books and affairs of the Bank, with the aid and all of the creditors may be willing to afford, and as soon as possible report of the exact condition of the Bank's affairs.

2d. To examine into and report upon with all convenient dispatch, the condition and whereabouts of all securities belonging to the Bank, with statement of the amount thereof, by whom held and for what purpose, together with his opinion concerning the steps necessary to be taken in order to promptly make the same available to the creditors.

3d. To inquire into and report fully relative to the existing liabilities of the Bank, with a complete list of the creditors thereof, which list shall exhibit the names, residences, and claims of each creditor, and the amount due each creditor.

Resolved further, That the said Boyd shall be entitled to and shall receive the sum of \$500 per month for his services, and that his appointment shall date and take effect from the time of executing and delivering to the Board a bond, with sufficient surety, in the sum of \$100,000 and conditions for the faithful performance of his duties and trust, to all parties in interest.

Resolved, That as soon as a statement can be made by the Cashier, the attorney for the Bank be directed to prepare a circular letter showing the exact condition of affairs to be addressed to each of the creditors.

Resolved further, That the Board of Directors do respectfully invite all creditors to suspend hostile criticism and opinion in relation to the failure of the institution until a satisfactory understanding as to the exact condition of the Bank's finances can be arrived at. In the meantime the pledge is hereby given that the public shall be fully and promptly advised from time to time of the state of affairs, and the assets of the Bank faithfully applied to the payment of the claims against it.

BODIE MINING ITEMS.—A Bodie dispatch of the 3d reports the subjoined interesting information from that camp: A very rich strike was made to-day in the 600 level of the Jupiter mine. It has been known for several weeks that a rich development had been made on the 500 level, and it has been anticipated that it would be intercepted by work in a corresponding direction on the 600 level. A number of mining men, including Joseph Wasson, of the Free Press, and several Superintendents were admitted to-day. The ledge, where cut, is so far as entered, remarkably rich in both silver and gold, and will run into the thousands per ton. Considerable excitement has been created by the strike. The 600 level of the Jupiter is the lowest point in the district at which rich ore has been struck, and, taking the configuration of the country is about as deep as any point reached. It is situated east of and parallel with the Bodie and Mono and south of the Standard and Summit mines. The Belvedere commenced crushing ore to-day.

The Bodie and Mono have commenced to sink a new joint three-compartment shaft. The bullion shipments from Bodie District during July aggregated \$250,786 12, distributed as follows among the several companies: Standard Consolidated, \$145,018 78; Noonday and North Noonday, \$81,493 40; Bodie Consolidated, \$28,682 07; Bulwer Consolidated, \$8,691 23; scattering \$6,900 50.

RATIFICATION MEETING AT EUREKA.—Arrangements are being made for a grand ratification meeting by the Democracy of Eureka at an early day. It is designed to be one of the grandest rallies ever witnessed in Eastern Nevada. Distinguished speakers are expected from abroad, and all of the local talent will participate. The Sentinel says of it: The date of the formal opening of the campaign in Eureka has been deferred, from the fact that a double term of our District Court was in session, which so occupied a majority of the Democratic lawyers that few of them cared to give any thought to politics until the professional duties in hand had been discharged. Now that the coast is clear, however, the active work of the campaign is to be taken hold of and prosecuted with energy until the last vote is polled at the election in November. The date agreed upon for the demonstration, a list of the speakers and other particulars will be given soon—just as soon as the necessary arrangements shall have been completed.

GOOD NOTICE.—The Tuleseora Times-Review, a Democratic newspaper, comments as follows upon the candidacy of our esteemed friend James Clark, of Elko. James Clark, Esq., proprietor of the Depot Hotel at Elko, announces himself in to-day's issue as a candidate for the Republican nomination for County Treasurer. Mr. Clark is one of the best known and most popular men in Elko county. He is a thorough going business man, perfectly honorable in all his dealings, and of unquestionable integrity. If nominated and elected, the funds of the county will be perfectly safe in his hands and he will prove in every respect a faithful and efficient public servant. The Democrats will have to nominate one of their best men for County Treasurer to make the contest close enough to be interesting.

NON RESIDENTS.—The Pioche Record is opposed to citizens of other States or Territories being elected U. S. Senator from Nevada. It says: And now some of the papers are talking of Gen. P. E. Connor for the Senatorship from this State. Take your choice, citizens of Nevada, Connor of Utah, or Sharon of California. As we have so much better material in Nevada to place in the United States Senate than either of the above named gentlemen, we hope the members of the next Legislature will send a de facto resident of this State.

MEADOW LAKE GOLD.—Of the prospects of Meadow Lake district the Truckee Republican has the annexed: We were shown a small pile of coarse quartz gold this week which was taken out of some decomposed rock with a mortar. Judging by the quantity shown us it must have been very rich rock. There is considerable movement among prospectors now in that vicinity. We learn that quite a number of patents to ground, will soon be applied for. Parties from San Francisco and other places are becoming considerably interested in the outlook.

ELECTORS.—The great East seems desirous of being recognized in the Republican State Convention. There will be no lack of candidates. The Times-Review says:

J. M. Woodworth, R. R. Bigelow and J. H. Rand, of this county, are mentioned as candidates for Presidential Electors for the State of Nevada. All are well known in this part of the State, and if selected by the Convention next month will doubtless do good work for the Republicans throughout the State.

It is well said by the Enterprise that "the big crops and the assurance of prosperity in the country largely increase the chances of the election of Garfield. The country has been so prosperous and has grown so great under the administration of the Government by the Republican party, that the people are not willing to risk the experiment of placing the Democratic party in power, with at least the contingency that the South will hold the purse strings of the Nation and reimburse itself for the losses sustained through the war by that section. The people of the North are not yet ready to surrender the control of the Government to the rebel Brigadiers."

The Enterprise says that owing to the length of time the operations have been confined to the barren zone, times have become hard and business depressed on the Comstock, and the depreciation of the value of the stocks has caused a depression of business in San Francisco, which has extended more or less all over the Pacific coast. It adds: We believe that light will soon break; that the dark days are nearly over, and that mining operations on the Comstock will soon pass out of bonanzas into bonanzas and some of the old-time prosperity return to the lode.

Almost complete census returns from California show a population of 864,836, a gain of 304,589 over 1870. Alameda, Colusa, Humboldt, Lake, Lassen, Los Angeles, Merced, Mono, Shasta, Tehama and Tulare each show an increase of 100 per cent and over. Mono, owing to mining discoveries, has the largest increase—1,200 per cent. Alameda and Tehama show the greatest increase among the agricultural counties.

The Reno Journal says that all the Republican delegates from Washoe county are pledged to Daggett and Beatty. This statement may be correct so far as Mr. Daggett is concerned, but is exaggerated as to the other candidate. —[Carson Times.]

The Times is clearly wrong. All the delegates elected either personally declared themselves in favor of Beatty and Daggett, or were vouched for by some friend. No man who was not in favor of them could have been elected, and the Times can rely upon it that the Washoe delegation is solid for Beatty and Daggett.

Stockton and Bodie Railroad.
[Bodie Chronicle, July 31.]

It has been supposed that the projected Stockton and Bodie Railroad had fallen through, such having been the report from Stockton, but it seems that such is not the case; that the matter is under serious consideration, and statistics are now being gathered as to the amount of freight likely to be done over the route proposed for the road to take. This week a party of gentlemen from Stockton have been visiting our city, and obtained much valuable information in regard to the permanency of our mines, the future prosperity of the district, the amount of wood consumed at our numerous hoisting works and mills, as well as for the domestic uses of our large population, the amount of merchandise daily coming in, and other statistics incidental to railroading. These gentlemen returned to Stockton this morning and will report to the promoters of the enterprise at an early day, when a preliminary survey of a route will be commenced. This road will connect at Antelope Valley with the Oregon and Nevada Narrow Gauge Railroad, to be built from Reno south. The Oregon and Nevada railroad will pass through Bridgeport, run up Dog Creek and strike Mono Lake. From Bridgeport a branch road will be built to Bodie, double-header trains being run between these places. The Directors contemplate having the road to this place in running order within the next twelve months. The Stockton and Bodie Railroad will open up a valuable mineral, timbered and agricultural country, whether the Sonora or Big Trees route is selected. It will pass through a densely timbered country and give employment to hundreds of men in getting out lumber and wood for the Stockton and Bodie markets, for Stockton will be a good market for lumber and wood, as well as Bodie.

In a Barren Zone.
[Enterprise.]

Now that the blanket ledges of Colorado are petering out and other mining sections that distracted attention from the Comstock are not panning out up to expectations, it is likely that the capital withdrawn to other localities will find its way back into investment in the exhausted old lode. The Comstock is a true fissure, and science and the history of mining both demonstrate beyond question that a true fissure lode is exhaustible to as great a depth as mechanism can be applied to its exploration and working. There are barren zones in all fissure veins, and in the smaller veins there are breaks, which at times makes it seem that the ledge is lost, but breaks are followed and the vein regained and barren zones are passed through into bonanzas. The operations on the Comstock have been for a long period in a barren zone, simply because the barren spot could not be skipped and had to be passed through in prospecting for new bonanzas. Unlike mining in blanket ledges, chloride pockets or limestone channels, there is a guide to prospecting in fissure veins. The ore chimney may give out, but the vein remains, and there is just as much probability of finding ore at a depth of 5,000 feet as there was of finding it at 500.

THE NORTH END.
Ore Between Union Shaft and the 2500 Station of the Sierra Nevada Incline—The Situation on the 2500 of Union Outlined.

The Gold Hill News prefaces its report of the situation of mining affairs on the Comstock, with the following general remarks:

It would seem that the beginning of the end of the present depression in mining matters on the Comstock had been reached. Dealers and the market have been waiting for a development, and it has been made, not where and as expected, perhaps, but it is all the more encouraging because in a measure unexpected. At present the indications are that in the connection between the Union shaft and the 2500 station of the Sierra Nevada incline there are thirty-five feet of good ore. The probabilities were that none would there be found. The workings each way have not yet been connected, but both are in ore, and that from the Union shaft has been in ore for 15 feet. The last blast in the face of this drift was the best.

The situation on the 2500 of Union increases in interest. This is the lay of the level: First, distances. From the Union shaft it is 340 feet east to winze No. 1. To the Sierra Nevada incline from the Union shaft is 260 feet; from winze No. 1 to the incline, 160 feet. From winze No. 1 to winze No. 2 is 270 feet; direction almost south. The drift south on the 2500 level from the Union shaft is not aimed, as is generally supposed, at winze No. 2, but at the joint Union-Mexican winze further south. This drift is to connect with that run north through Ophir and Mexican on the 2500, and is for a general thoroughfare.

Now the ore body on the 2500 has been struck between the Union shaft and the Sierra Nevada incline, where it is likely to show more or less of value (probably more) for about 35 feet. It feathers out in stringers of good ore, and shows itself for 15 feet between winze No. 1 and the Sierra Nevada incline. It also shows promising material between winzes Nos. 1 and 2. Stringers of low grade quartz and clay reach out to the drift south from the Union shaft. Thus the ore body of Union is displaying itself in four different places; yet the chances are that all this will be forgotten before the level can be opened up by crosscuts, as that work is still somewhat in the future.

Other points of interest just now are: Savage bulkheads, which will allow doubtless of the resumption of prospecting from the C. N. S. shaft before another report is made. Completed connection between Yellow Jacket and Crown Point and Belcher; the working on the 3000 of Crown Point for connection on that level with Belcher preparatory to the resumption of prospecting at that depth by the latter mine, and operations in Overman, Benton, Alta and Silver Hill.

TRUCKEE ITEMS.—The Truckee Republican of Wednesday contains the following notes:

Destructive forest fires are still raging in the woods near Lake Tahoe. It is supposed to be the work of evil disposed persons.

Trout in Donner Lake are not biting as freely as they did some time back. Chub fishing, however, is excellent.

About 150 men are now employed by the O. P. R. R. Co., at Emigrant Gap, rebuilding the snow-sheds crushed by the snow last winter.

Within a radius of fifteen miles of Truckee, there are 600 men at work in the woods—their salaries ranging from \$40 to \$125 per month, including board.

Truckee does not seem to be overly healthy at present. The public must bear in mind that hot weather is a breeder of disease wherever a cause for it exists. Clean everything like decaying vegetable matter from your premises, look to sinks and sewers, and health will be your reward.

Wm. Johns, Superintendent of the Plumas Eureka Mine, and family passed through Truckee for below, Monday.

SIERRA VALLEY ITEMS.—Dr. M. Pritchard writes the Virginia Chronicle the following news from Sierra Valley:

The grasshoppers are doing some damage to the grain, but very little to the hay. There are millions of small toads on the ground, but they do no harm.

Butter is low, and dairymen are not in very good spirits thereat. Hay also will be low, owing to railroad competition in the Truckee market.

Sunday is a good day for the saloons here, and the pious ranchers suspend work and many of their hands come to town and spend their earnings in drinking and gambling. The stores, hotels and saloons do about as much business on Sunday as during all the other days of the week combined. There is no regular gospel dispenser in Sierra Valley and only one Sabbath School, and the morals are not of a very high grade for a country place.

The physical health of the people, so far as acute diseases are concerned, could not be improved upon. The Hot Springs hotel at the head of the valley is full of invalids. It is a pleasant as well as a beneficial place for them.

Some people hold to the theory that misfortune befalls a man up. Perhaps it does; but the other day a West End man got under six lengths of a falling stove-pipe, and when he staggered from under it, fell down stairs and upset a man with a basket of eggs, who had just come in. The man yanked him out of the egg basket and chucked him into the street, where he was run over by a butcher's cart and bitten by a cross dog, and, though this was quite a streak of misfortune, nevertheless, instead of being braced up by it, he was made as limp as a wet rag, and utterly good for nothing. Where's your theory?

"JOE'S" DASH AT POKER.
How a Beautiful Expert at the Game Lost His Nerve.

[From the Albany Times.]

The most accomplished looking colored gentleman in the hotel porter line in this State is Joe, who officiates in that capacity in the Delavan House. Unfortunately, Joe has an idea that he is an expert at poker. He is very often anxious that some of the distinguished poker experts who stop at the Delavan should try him on those points, but though Joe makes about \$100 a week at the Delavan, he doesn't usually have money to engage in any of the games of these experts, because he "bucks" the far banks too often.

Recently a good chance was given Joe to show his skill. Senator Woodin was playing a simple game against Senator McCarthy, and both of them are acknowledged experts in the game, when Joe happened in the room. Senator McCarthy at once said, "Here's my man! Joe, will you take my hand for a few moments? There are several people down stairs who want to see me."

Joe jumped at the chance. "Why, of course, sah," he said, "if Mr. Woodin is agreeable."

Mr. Woodin was agreeable, and Mr. McCarthy left, first giving instructions to Joe to play his best and bet up to any amount, depositing \$10,000 in crisp notes on the table in front of him.

"Now," said he, "I am responsible for anything you may do. Act according to your own views and I'll back you."

With that he went out. Joe dealt and received a couple of queens. Mr. Woodin immediately bet \$1,000. Joe's short hair stood on end. He thought that was a pretty savage sort of beginning. He'd like to wait until Mr. McCarthy would come back. Mr. Woodin said that he could not sit two or three hours over a small bet like that, and Joe must either see him or pass. Joe lost heart and laid down his hand, showing two queens. Mr. Woodin inadvertently laid down his hand as he pulled in the wager, and showed a lonesome pair of deuces.

"For the land's sake, Mr. Woodin," said Joe, in terror, "you didn't never bet all that money on them two little ones?"

"There's the hand. If you can find anything else in it, maybe I didn't."

Joe sighed.

"Well," said he, "if you do that often with me, you'll be a poor man 'fore Mr. McCarthy gets back."

Mr. Woodin dealt, and Joe received a pair of aces. He bet \$250. Mr. Woodin promptly raised him \$1,000. Joe heaved a dreadful sigh.

"Ain't there no limit to this game?" he asked helplessly.

"No, we never play with a limit," remarked Mr. Woodin, sharply.

Joe looked at him a long time.

"You tried that on me a little while ago," said he, "and I believe you're bluffing. I see you, and I want three cards."

He put up his money and drew his cards. Mr. Woodin saw his countenance fall. Mr. Woodin drew one card. Joe's anguish showed itself in the heavy beads on his corrugated brow.

"Land's alive!" he muttered.

"Well, it's your bet," said Mr. Woodin, calmly.

Joe had only his two aces.

"I reckon I'll pass," he said.

"Well, what sort of business do you call such a slow performance as this?" said Mr. Woodin, impatiently, "I'll bet you \$3,000 more."

Joe glared like a fallen angel and his hands trembled until the cards rattled.

"Mr. Woodin," he said piteously, "jest do me a favor. I don't want to play no other man's money, and I'll never do it again. Jest draw all dese bets and let me quit. Mr. McCarthy can do his own betting; I won't at dem figures."

Mr. Woodin said "certainly;" divided up the pot again, and then laid down his hand. He had just exactly that same pair of deuces! Joe rushed from the room.

ANOTHER COUNTY HEARD FROM.—The Eureka Sentinel says that the White Pine delegates to the State Convention will go for General Sabin for the Supreme Judgeship. The Appeal has positive information that such is not the case, but that the White Pine delegates will throw their strength for Judge Beatty, a gentleman who has proven himself worthy of the esteem and good will of the people of this Commonwealth, and who owe it to themselves to renominate and re-elect him to the office he is now ably filling.—[Carson Appeal.]

THE WEEKLY JOURNAL.

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

GREEN'S AUGUST FLOWER.—It is natural for people suffering with dyspepsia or liver complaint or any derangement of the digestive organs, such as sour stomach, sick headache, habitual constiveness, palpitation of the heart, heart burn, water-brash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue, and disagreeable taste in the month, coming up of food after eating, low spirits, etc., to put off from day to day buying an article that they know has cured their neighbor, friend or relative, yet they have no faith in it until it is too late. But if you will go to your druggist and get a bottle of Green's August Flower your immediate cure is as certain as you live. Sample bottles of this medicine can be obtained for 10 cents to try its superior virtue. Regular size 75 cents. Try it, two doses will relieve any case.

HAYING.—The hay harvesters are now at work all over the county. The crop will be large and of good quality, and it will not be necessary this year to ship hay from California, as was done last year.—[Elko Post.]

MOTHERS! MOTHERS! MOTHERS!
Are you disturbed at night and crying of your infant by a sick child suffering and broken with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. Jan10-17-SunW&W

A Great Relief.

It is a great relief to witness such a radical change in arena performances, as has taken place under W. W. Cole's management. His monster shows are beyond all question, the most perfect, novel and interesting exhibitions ever given in this city. Such a vast collection of strange things were never seen before, and the most pretensions concerns in existence may now hide their heads in shame, for Cole has achieved a triumph that will hand his name down to future generations.—[Washington (D. C.) Morning News. W. W. Cole's press-crowned shows will positively exhibit at Reno Saturday August 21.]

Candidates for Annapolis.

From Virginia City and Gold Hill there will be about a dozen candidates for the vacant place in the Annapolis Naval School. There will also be several from Silver City, Dayton and Carson who will enter for the competitive examination, which is to take place at Carson on the 21st instant. Are none of our Reno boys going to try and win the prize?

We are getting a little tired of having the wind come up from the West every afternoon, blowing clouds of dust through the principal streets. If we had money enough we would build a high wall between Verdi and Reno.

The vote at Glendale for delegates to the Republican State Convention resulted Shoemaker 10, Varian 10, Fish 10, Boardman 8, Kinney 10, Everett 10, Marker 10, Fowler 10.

John Sunderland has just received from New York a lot of Garfield and Hancock hats, which are very nice, and sure to please the most particular.

NEWS OF THE MORNING.

Dr. Tanner is about the same, and in good spirits.

Gen. Chambers has withdrawn his declination of the Greenback nomination for Vice President.

Gladstone is improving. The lung congestion has ceased, and he is free from fever.

A New York dispatch says: Escaped sea lions from Coney Island are being encountered all along the coast. The latest reports are from Palisades in the Hudson and from Baltimore. Bathing, particularly on the part of women, has been sadly interfered with.

The Inter-Ocean's Washington special reports that Jay Gould is contemplating a severe blow at the Northern Pacific by building a branch of the Union Pacific to Puget Sound, taking Cheyenne as the starting point. While he proposes to reach Puget Sound ahead of all rivals, he expects to make a paying stopping place at National Park on the Yellowstone.

Advices from the city of Mexico are to July 27. The disorders and revolts reported recently from various parts of the Republic, though inspiring no serious fears, continue, notwithstanding the assertion that all was quiet. The opposition, enraged at General Gonzalez's success, calls President Diaz a bloody despot, and predicts that Gonzalez will be worse one. The situation of the country is confused and undefined. Diaz has called Gonzalez to the capital.

To Destroy Grasshoppers.

Our farmers are carefully studying the habits of the grasshoppers with a view to exterminating them. It has been ascertained that they select soft, sandy, but often rocky spots in which to lay their eggs. George Alt, Henry Whistler and other leading farmers, propose to observe closely and find out these spots, and then, after the eggs are all laid, to plow the soil very deep, and turn them all under. Then, to make it still more certain, they will pasture their cattle on the infested spots and thus trample the eggs to pieces. This experiment has been tried and is a success. A concerted movement in this would materially decrease the next year's stock of hoppers. Vigorous efforts should be put forth, and the first crop next year, be saved, at least. We urge our farmers to give this subject the attention it merits.

C. & C. R. R.

The are about 500 Chinamen now employed on the Carson and Colorado Railroad, says the Carson Times, and more are being employed. The work on the roadbeds and bridges is being pushed through rapidly. Piles are now being driven in the river at Dayton preliminary to building a bridge there. One hundred and twenty horses are used to haul dumps and scrapers—about thirty on the dumps and ninety on the patent scrapers. These horses are being bought in Reno and vicinity at prices ranging from \$60 to \$100 each. The telegraph line will soon be started to run the length of the road. The lines of rail will positively be extended to Candelana this year, and will then tap and open up a vast mineral region now at a disadvantage owing to lack of facilities for transportation.

August 15th the Resolutes of Virginia will play at Reno a social game of base ball with the Live Oaks.

BODIE RAILROAD TALK.

In the Bodie Free Press of the 3d we find the subjoined account of a railroad speech:

J. C. McMarnahan, the well-known wood man, last evening in front of the Bodie Bank, discussed the advantages to Bodie and Mono county of the Oregon and Nevada Narrow Gauge Railroad. The necessary surveys for the road are now being made. The speaker made numerous promises for the railroad company. He said only white men would be employed in constructing it; that wood and vegetables would be cheap, and that everybody would be benefitted by the enterprise. This road is in opposition to the Bodie narrow gauge. McMarnahan is an old-timer in this section and believes in the permanency of the camp.

Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

Job PRINTING.—This office has every facility for doing all kinds of job printing. And inasmuch as all home industries should have the preference over all others, we should be pleased to receive orders at any time for that class of work.

REPUBLICAN STATE

CONVENTION.

IN ACCORDANCE WITH A RESOLUTION passed at a meeting of the Republican State Central Committee of Nevada, held at Virginia City, July 8, 1880, notice is hereby given that a State Convention of the Republican party will be held at

CARSON CITY,

—ON—

Aug. 11, 1880, at 12 O'clock M.

For the purpose of nominating

THREE PRESIDENTIAL ELECTORS,
ONE MEMBER OF CONGRESS,
ONE JUDGE OF THE SUPREME COURT.

—Also for the selection of a new—

State Central Committee

And the transaction of such other business as may legitimately come before said Convention.

The apportionment of Delegates from the various Counties to the said Convention is fixed as follows:

Churchill.....	1	Lander.....	5
Eureka.....	3	Lincoln.....	4
Yuba.....	11	Nye.....	4
Elko.....	9	Ormsby.....	6
Esmeralda.....	5	Storey.....	31
Humboldt.....	5	Washoe.....	8
Lyon.....	4	White Pine.....	5

The following resolutions were unanimously adopted:

Resolved, That Primary Elections for the choice of Delegates to said State Convention shall be held not later than August 7, 1880.

Resolved, That we recommend that Republicans in the several Election Precincts throughout the State form themselves into Clubs for effective work during the approaching canvass.

Resolved, That the test for voting at said Primaries shall be an affirmation by the person offering to vote that he is a citizen of the United States, that he voted the Republican ticket at the last general election in this State or would have done so had he voted at said election, and a pledge to support the National and State business of the Republican party at the coming election.

Resolved, That the several County Republican Central Committees to said State Convention be requested to provide for the election of Delegates from their respective counties to the Republican State Convention
I. L. MEQUA,
Chairman Republican State Central Com.
ALF. DERRA, Secretary.
